

Core Priorities: Healthcare Integration and Financial Support

Inputs

Leadership

Executive and Steering Committee; Working Group Co-Chairs

NAC Support Staff

Programs Director, Senior Manager of Health Programs

Audiences

Government agencies, cancer centers and clinics, quality measure organizations, caregiving and cancer CBOs, advocates, and caregivers

Resources

Funding, technical assistance from Steering Committee and partners (ad hoc); Cancer Caregiver Network (CCN)

Activities

- Resource development, technical assistance, and facilitating dissemination on CTS and FSS
- System implementation mapping
- Peer learning webinars & networking
- Policy analysis and advocacy actions
- Research agenda development with partners
- Story banking
- National conference presentations
- Caregiver Nation Summit – Annual Workshop
- Executive and Steering Committee meetings, CCN listening sessions

Outputs

- Peer-Learning Hub
- Policy Advocacy Network
- Awareness campaigns
- CTS and FSS research & data collection framework
- 2025 Cancer Caregiving in the U.S. Report & Dashboard
- CCN meeting reports, participation metrics

Outcomes

Short-Term

- Increased knowledge of CTS reimbursement pathways among cancer care professionals
- Greater identification of the training and financial needs of cancer caregivers through CTS
- Increased collaboration among cancer stakeholders in support of family caregivers

Intermediate

- Increased health system adoption and coordination of CTS in cancer care delivery
- Identification of barriers and facilitators to CTS and FSS implementation

Long-Term

- Development and dissemination of CTS and FSS best practices and strategies
- Widespread adoption of CTS and availability of FSS and policies everywhere cancer care is delivered

North Star

Family cancer caregivers for all populations and across the lifespan and care continuum are recognized, trained, and supported everywhere cancer care is delivered.
