

# Medicaid Home and Community Based Services

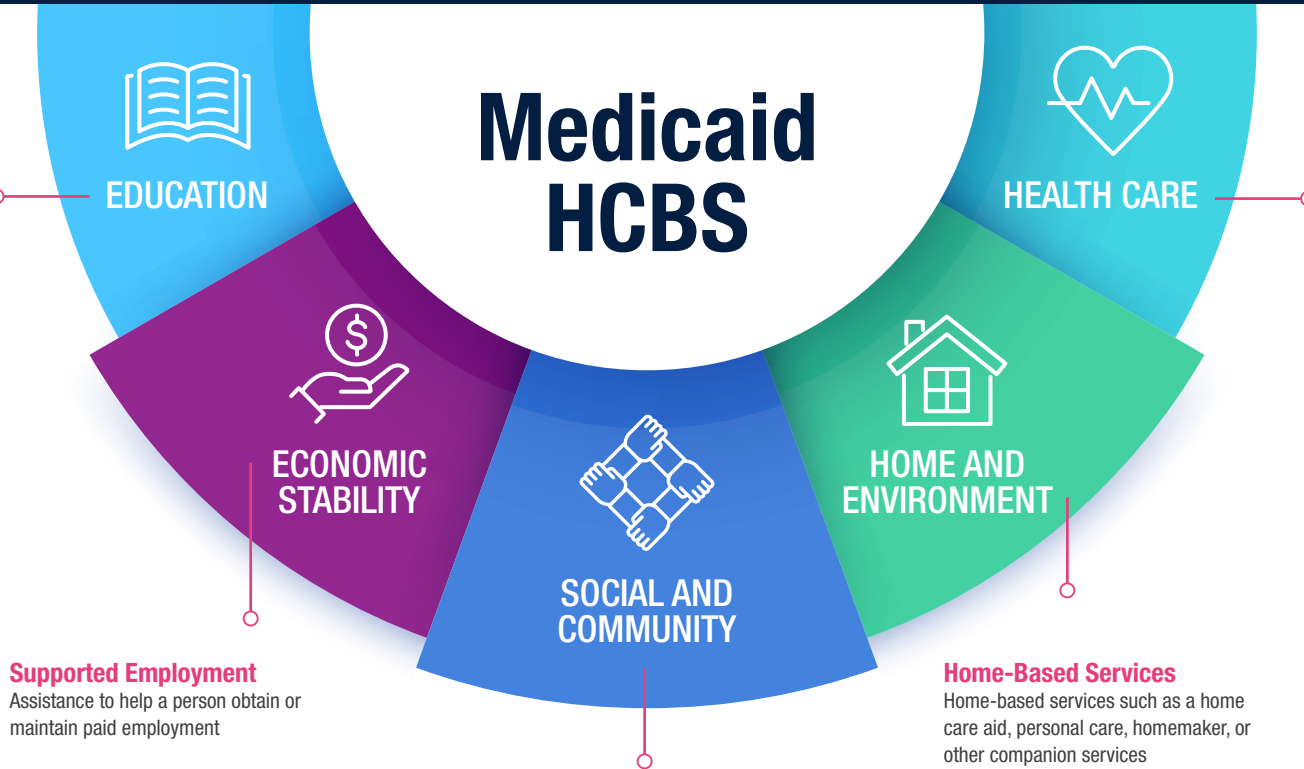

Medicaid Makes Care Possible

## Caregiver Counseling and/or Training

Counseling, emotional support, and/or training provided to a friend or family member who is the primary caregiver

## Participant Training

Training on specific treatment regimens, the underlying disability or condition, and service system navigation

EDUCATION

HEALTH CARE

ECONOMIC STABILITY

HOME AND ENVIRONMENT

SOCIAL AND COMMUNITY

## Supported Employment

Assistance to help a person obtain or maintain paid employment

## Self-Directed Services

Financial assistance for service provided by a provider selected by the Medicaid beneficiary, and participant training on self-direction; in some states, a family caregiver may be eligible for the self-directed services payment

## Caregiver Respite

Respite provided in-home or out-of-home

## Non-Medical Transportation

Transportation to/from other waiver programs, community activities, and/or public transit support

## Independence Support

Medicaid expenditures that allow the individual to live independently in lieu of human assistance, such as assistive devices or home modifications, when Medicaid would otherwise cover the expense of human assistance

## Home-Based Services

Home-based services such as a home care aid, personal care, homemaker, or other companion services

## Equipment, Technology & Home Modifications

Equipment such as personal emergency response systems, home/vehicle accessibility, and or assistive technology to help improve or maintain function

## Home-Delivered Meals

Prepared meals delivered to the home

## Community Transition

Set-up expenses for community transitions

## Case Management

Written, individualized support plans and help gaining access to services

## Nursing Services

Private duty or skilled nursing services

## Mental & Behavioral Health Support

Mental health support such as assessment, crisis intervention, counseling, clinical services and others to help restore function

## Health & Therapy Services

Therapeutic services such as health monitoring, assessment, dental care, speech or hearing therapy, and others
